

## MONADNOCK BATON CHART

The Monadnock Baton Chart has become the baton-targeting standard used by criminal justice professionals around the world since its introduction in 1988. The MBC is available in either standard or poster size.

# TRAINING AIDS

PROTECT AND RESTRAIN

If you're like most trainers, your goal is to provide realistic training without compromising safety. Top-quality training aids and educational support materials from Monadnock® help you accomplish this with confidence.

## RESISTANCE TRAINING GEAR

The following items help bridge the gap between static and dynamic movement in training.

### UNIVERSAL TRAINING BAG (UTB) Part ID 5002

For action-reaction response drills and power development for self-defense and baton training.

### UNIVERSAL TRAINING BAG 2 (UTB2) Part ID 5006

Features high-tech Force Deceleration Core to dissipate training blows from knees, elbows, fists or training-baton strikes with ease and comfort.

## TRAINING BATONS FOR SAFETY & PERFORMANCE

To reduce the risk of injury during training exercises, choose from foam or composite training batons.

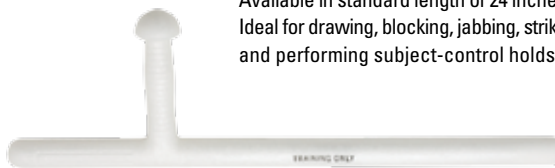

### SB-WT FOAM Part ID 5103 – 24 in. (60.96 cm) Part ID 5105 – 36 in. (91.44 cm)

Available in standard length of 24 inches (60.96 cm). Ideal for drawing, blocking, jabbing, striking, spinning and performing subject-control holds. Also available in 36 inch (91.44 cm) riot model.

### PR-24STSWT FOAM Part ID 5101 – 24 in. (60.96 cm)

Available in standard length of 24 inches (60.96 cm). Ideal for drawing, blocking, jabbing, striking, spinning and performing subject-control holds.

### ULTIMATE STRAIGHT TRAINING BATON COMPOSITE Part ID 5106

Durable DuPont® nylon material covers a neoprene sleeve, which is applied over a rigid core. Vinyl tip gives added strength and durability. Provides padded protection for blocking, striking and subject-control holds.

### 3xT - TACTICAL TARGETING TIP IN LIME GREEN Part ID (see price list)

The colorized 3xT Power Safety Tip™ (PST) helps you improve your striking skills because you can clearly see the track of the baton's tip during demonstrations, practice and/or on the job. 3xT Tactical Targeting Tip is available on various AutoLock® models. Retrofit to any baton with a Power Safety Tip™.

## MONADNOCK PRACTICE SUIT

The Monadnock Practice Suit helps you spend more time training instead of putting on one small piece of protective gear after another. The suit is easy to put on and take off, like a pair of pants and jacket, and cleans up with soap and water. It is color-coded based on the escalation-of-trauma to reinforce the targeting illustrated on the Monadnock Baton Chart.
